DETAILED ACTION

Election/Restrictions

1. Claims 23-26 and 46 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected inventions, there being no allowable generic or linking claim.

Response to Arguments

2. Applicant's arguments filed 8/26/09 have been fully considered but they are not persuasive as indicated below.

3. Applicant's arguments with respect to claims 19 and 27 have been considered but are moot in view of the new ground(s) of rejection. It is noted that Applicant fails to put all of the objected claims 20 and 43 into independent claims 19 and 27.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1, 2, 5 and 7 are rejected under 35 U.S.C. 102(b) as being anticipated by Robinson (as discussed in the previous office action).

The rim of Robinson as shown in Fig. 4 is extending from and surrounding the side wall. The top most of the support member (2b) is considered as the horizontal top surface since it is horizontally extending the length of the tub and the outer curved surface portion of (2b) is the considered as the substantially vertical outer surface as claimed.

Fig. 4 of Robinson shown the rim face which is molded onto the support member where the outer curved surface portion is extending from the rim top which is the top most portion thereof. The rim face is distinct from the side wall since it is horizontally offset from the side wall.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 19, 21, 27, 28, 30-33, 44 and 45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Robinson (as discussed in the previous office action) in view of Livingston.

The amendment to claim 27 offers nothing new since the support member of Robinson is a pre-formed polymeric that can be from an obviously well-known process such as extrusion. The Livingston teaches an improved spa sheet of dual-layers as claimed that can obviously be incorporated by the Robinson for extra insulation to the spa device. Therefore, claims 19, 21, 28, 30-33, 44 and 45 are met as discussed above.

Allowable Subject Matter

7. Claims 8-10 and 34-42 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

8. Claims 16-18, 13, 15 and 22 are still allowed.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
